Low Pressure Fluid Filter

Airspray

A low pressure filter for your airspray solution to ensure an optimal filtration of fluid materials.

Filtration is a recommended step to protect your spray gun's tip and avoid any blocking.

The low pressure filter is suitable for filtration on Airspray systems :

- PRIMA 01D100
- 01D140
- 02C85
- Pressure tanks

Technical data table

Designation	Value	Unit: metric (US)
Weight	1.1 (2.4)	kg (lbs)
Inlet Pressure Maximum	6 (87)	bar (psi)
Max Working Temperature	50 (122)	°C
Height	20 (7.9)	cm (in)

Performance

1 Various filter screens available : N°4 (140 mesh), N°6 (85 mesh), N°8 (70 mesh), N°12 (55 mesh)

- ◆ No more contamination of the paint

Productivity

2 Easy maintenance and replacement of the filter screen

- ◆ Large filtering area to prevent the filter screen from being cleaned regularly

Sustainability

- ◆ Minimal dead zones for optimal flushing
- ◆ Fluid passages in anodized aluminum

Description
